

To whom it may concern

LLC "Noks Fishes Finance" under request of STRATCOM UA realised project to research the representation of the State Border Guard Service of Ukraine in media. This research was carried out with the use of content analysis method which aims at description and systematization of research objects with statistically meaningful validity.

Results of this research were applied to solve important questions of strategic order. As a partner we confirm that the fulfilled study was complete and done according to the brief.

We value the contribution of "Noks Fishes Finance" in the exploration, development and practical use of scientifically grounded research methods to make informed decisions for purposes, tasks and benefit of Ukrainian defence and security bodies.
